

HEAR THE CREATION GUY IN CANADA

When Aussie John Mackay first came to Canada, he defeated four evolutionist professors from the University of Saskatchewan in one sitting. That event marked John's explosive entry into Canadian circles and this debate is still available online as a reminder that truth always trumps bad science. Since then John has debated many scientific leaders in evolution from prestigious institutions across the globe including Oxford, and Cambridge as well as being pitted against the notoriously atheistic Biologist Richard Dawkins.

John Mackay is a man you want to hear about the truth and the evidence for God's Word about Creation and the Creator Christ who made it. **Come bring your questions to John's great meetings across Canada during November and December.**

John has been keynote speaker at the 2014 and 2017 UK AiG Mega conferences along with Ken Ham in Birmingham, Canada's Muscoka Baptist Conventions, and Australia's Warwick Easter Conventions. His many years teaching have enabled him to communicate to all ages. His presentations to technical associations are available in John's web bio.

GREAT TOPICS, GREAT Q & As

Sharing evidence God's Word is true from the beginning and Christ is Creator, Redeemer Saviour and Lord.
